would have shaken Salt Lake from one end to the other. Chemist Harms

says it was an act of providence shaken and jolted around town for services were held in the afternoon. three or four days Mr. Christensen decided to use it as evidence in the case against the men and had it taken to Chemist Harns to have a chemical nalysis made of it.

Explosion Narrowly Averted.

The liquid in question was submitted to the general test. It was practically insoluble in water. In alcohol and ether it was readily soluble. No reaction was noticed when the litmus and phenolphtalein tests were made. He was not inflammable by ordinary contact with fire. Then Chemist Harms put a few drops in a test tube and put over a flame. If heated to any exeven violent shaking of the liquid will eause it to explode. As soon as the liquid was put over the flame a vapor arose which instantly caused Mr. Harms' head to ache and made him

capsule on a brick and then dropped a tone weighing several pounds on it. followed which fairly shook Chemist Harms off his feet. The rock was broken in a maces and the brick crumbled by the concussion. This proved beyond a doubt that it was

Mr. Ha ms returned to his laboratory, but handled the bottle with more cau-Perhaps if the test tube had remained in the flame another instant he liquid would have exploded. The concussion would have been great enough to explode the liquid in the bot-tle. If such had been the case nobody ould have been left in the building to tell just how it happened.

Explosive in Concentrated Form.

In Mr. Harms' report to County Attorney P. P. Christensen he submits a complete analysis. He says that it was in the most concentrated form and that the bottle contained about three-quarters of a going of the liquid. Nitro-glycerine is one of the most powerful explosives. One measure of it yields on explosion 10,386 measures of gas, while gunpowder yields but 800 measures of gas to one measure of powder when

emperature, then the glycerine is added and the "soup" is ready to be fed to the safe.

The sample which came near ending the life of Chemist Harms had been made but a short time. The gang of men had covered it with dirt in a corner of the hut, where the temperature ould not cause its explosion, The bottle was returned to County The bottle was returned to County
Attorney Christensen and will be exhibited as evidence at the men's trial, together with the analysis made by

Charmier Hawner Christensen and will be exhibited as evidence at the men's trial, together with the analysis made by

BOMB WAS HARMLESS.

Paris, Dec. 17.—The bomb found on the train at Saint Nomia Bretche, on which President Loubet was proceeding from Marly with a shooting party, and which it was supposed was intended to kill the president, turns out to have been harmless. Analysis showed that the contents were composed of clay, crushed coal, mails and torn paper soaked in petroicum. The bomb was labeled "Long Live Malitou," referring to one of the anarchists recently acquitited of the charge of participation in the attempt on the lives of King Alfonso and President May 31 last.

LECTURE BY ROBERTS

the carrying capacity of the land and its situation relative to a market for stock. Under ordinary conditions, how-Ogden Audience Treated to a Discourse Upon "What Mormons Do Not Believe."

> B. H. Roberts lectured in the Ogder tabernacle yesterday afternoon before large audience under the direction of the Seventies upon "What Mormons Do Not Beiteve," Preceding the fecture the labernacie choir rendered a number of selections. Mr. Roberts was at his best, and said, among other things, that the Mormons did not believe in all that was preached from the pulpit of the church, in all that was preached from the pulpit of the church in all that was written by the leaders of the church, in assassination for apostasy, or in blood atonement. He said they did not believe in Importance as a source of religious faith. He pointed out that these things were generally believed by those outside the church to be a part of the Mormon religion. He said their belief in regard to blood atonement was quite the same as that of any other religious sect, and called attention to the fact that Jesus Christ gave his blood to atone for the sins of the world, and that this was the extent of the Mormon belief in blood atonement. He then went the first that Jesus Christ gave his blood to atone for the sins of the world, and that this was the extent of the Mormon belief in blood atonement. He then went beyond the subject of his fecture and stated that one of the principal beliefs of Mormonism was that of education, which was one of the first things advanced in every settlement made by the Mormon people, and referred to the educational stratem or the church schools. He decried the fact that the elders of the church did not speak as if they were unworthy of the pulpit. He also said inspired, and for that reason many were unworthy of the pulpit. He also said they should endeavor to raise the pulpit above the low standard to which it had

MRS. MARY GORMAN DEAD.

Deceased Mourned by a Large Circle of Friends and Relatives.

Mrs. Mary Gorman died at the family mrs. Mary Gorman deel at the falmay residence. 2612 Adams avenue, at 9 o'clock yesterday morning, from an attack of spinal meningitis, after an illness of about a month. She was well known in Ogden and was the wife of William Gorman, a Union Pacific engineer. She was a daughter of Mr. and Mrs. Thomas O'Keefe, now residing in Salt Lake, and was 42 years of age. She was born in County Cork, Ireland, and came to America with her parents when a small child. She was a graduate of ronic will cure deadruff, because it won't able either before or after the land is open for settlement, and to have pre-cedence in the order in which they are agraph is intended to prevent confusion and to restrict the entries as far as possible to real settlers. Each certifi-cate should be valid for a limited pe-riod, say thirty days after which, if Funeral services will be held at St. Joseph's Catholic church at 10 o'clock Wednesday morning. Interment will be in Mountain View cemetery.

Funeral of Mary Scott.

certificate would be issued to the next Services over the remains of Miss Mary Scott were held at 2 o'clock yesterday afternoon at the residence of J. W. Weatherspoon, 231 Pacific avenue. Bishop Robert McQuarrie presided at the services. There was a large gathering of relatives and friends, and many floral offerings. The First ward choir furnished music. The speakers were Robert Moyes, William Moyes George Lochhead, str. John Dabb, Bishops James Wotherspoon and Robert McQuarrie. Interment was in the City cemetery. 12. Funeral services were held at 2 o'clock runeral services were head at 2 0 clock yesterday afternoon over the remains of Helena, the infant daughter of Krym Cankaampen, at the residence 752 Volkor avenue. The services were largely attended. The speakers were E. Neuteboom, P. J. Lamers, J. W. F. Volker, T. A. Shreeve and J. Barton. Interment was in the City competer.

ORIGIN OF MOTHER GOOSE.

She Was a Mythical Old Frenchwoman, a Story Teller. (The Dial.)

The earliest date at which Mother Goose appears as the author of chil-dren's stories is 1637, when Charles Perrault, a distinguished French litterateur, published in Paris a little bo of tales which he had during that at the preceding year contributed to magezine known as the Recueil, printed at The Hague. This book is entitled "Histoire ou Centes du Tems Par se, avec des Moralities," and has frontisplece in which is pictured an o woman telling stories to a family grou sexecutive order that his been made or may be made establishing any grazing district, and by such medification may reduce the area or change the boundary lines of such district or may vacate altogether any order creating such district.

The botanist of the department of agriculture, Frederick V. Colville, also has submitted a plan for the regulation of grazing, which is as follows:

1. Public lands in the arid-land of the following state of the backgroung are the words in large characters from the accordance with the revenue derived from that district.

21. The grazing permit system to be administered by the secretary of agriculture.

22. Each grazing district to be in accordance with the revenue derived from that district.

21. The grazing permit system to be administered by the secretary of agriculture.

22. Each grazing district to be in accordance with the revenue derived from that district.

23. The grazing permit system to be administered by the secretary of agriculture.

24. Each grazing district to be in accordance with the revenue derived from that district.

25. Each grazing district to be in accordance with the revenue derived from that district.

26. Each grazing district to be in accordance with the revenue derived from that district.

27. The grazing permit system to be administered by the secretary of agriculture.

28. Each grazing district to be in accordance with the revenue derived from that district.

29. Each grazing district to be in accordance with the revenue derived from that district.

21. The grazing permit system to be administered by the secretary of agriculture.

22. Each grazing district to be in accordance with the revenue derived from that district.

21. The grazing first to be in accordance with the revenue derived from that district.

22. Each grazing district to be in accordance with the revenue derived from that district.

23. The grazing first to be in accordance with the re by the fireside, while in the backgrou It is thus clear that Mother Goo was of French extraction, and of least respectable antiquity. But the far nothing has been heard of her "Me She began her existence as t reconteur of fairy tales, not as sursery poetess.
